Mayor Kenneth Gibson
920 Broad Street
Newark, N. J.
07102

Dear Mayor Gibson,

I am the tall black gentlemen, you met at the Symphony Hall last Sunday, November 23. I mentioned that Gordon Bishop had written of me in the Ledger concerning my project to COMPOST SEWAGE SLUDGE into a low grade fertilizer, in lieu of landfilling and ocean dumping. Perhaps you might be able to help me in getting the State to make a decision on this project that has been mired in the bureaucracy.

I have enclosed a little literature for your enlightenment, perhaps you might seek the consideration of Senator Lipman.

Thank you,

P.S. this project has the
potential to employ over
40 persons, directly and
indirectly.

John S. Lewis, Pres.
(a family corporation)

KENNETH A. GIBSON

MAYOR

NEWARK, NEW JERSEY

07102

December 5, 1980

Hon. Wynona M. Lipman
Senator
50 Park Place, Suite 938
Newark, New Jersey 07102

Dear Senator Lipman:

Enclosed is correspondence we received from Mr. John Lewis. He is attempting to obtain a state DEP permit and has met with a great deal of bureaucratic red tape.

Can you look into this?

Thank you for your cooperation.

Sincerely,

Kenneth A. Gibson
